

# 225MM TWINWALL 110MM SEWER 45° JUNCTION

## Product Data Sheet

**PRODUCT CODE - 45J225110**

**Depth | 435mm**

**Twinwall Pipework | 225mm**

**Sewer Pipework | 110mm**

**Material | Polypropylene**

**Weight | 2.3kg**

| The 225mm Twinwall/110mm Sewer 45° Junction enables the connection of twinwall and sewer pipes in underground drainage systems. This junction facilitates the redirection of flow between different pipe sizes at a 45° angle, offering flexibility and efficiency in system design. Its angled configuration supports the smooth transfer of contents while accommodating the specific requirements of the drainage network. Designed for compatibility with 225mm twinwall pipes and 110mm sewer pipes, this component ensures seamless integration and enhances the versatility and functionality of the drainage system.

Installation guidance and assistance is available
